ZAAAN Dürä

Hydraulic jacks

“ ZAAAN Dürä ” series Hydraulic Bottle and Trolley automotive Jacks are designed and crafted to perform lifting above its rated capacity, with superior stability and easy lifting. All the jacks are made up of super heavy duty steel body fabricated from high gauge steel frames and CDW Steel tubes made up of high quality steel. The base plates of all jacks are made from forged steel sheet, which ensures higher stability at higher loads.

Salient features of ZAAAN Dürä Hydraulic Jacks:

- Argon welded construction ensures leak proof yet strong and rigid body. For higher lifting capacity, stability and durability.
- Super finished RAM for smooth movement of ram and ease of lift, reduced wear and tear. Long life to oil seals.
- Superior quality imported oil seals offers perfect sealing and longer life.
- Fine finished oil passage, Ball valves positioned by dual springs for easy oil flow and firm lifting.
- Large Knurled saddle ensures firm grip and convenient positioning at vehicle lifting points.
- Machined finished extension screws for smooth rotational adjustment to fit perfectly at vehicle lifting point.
- Fine threaded release valve for smooth releasing and closing.
- Powder coated extendable 2 piece lifting levers with pressed ends for convenient handling of release valves.
- Ram safety extension lock: to prevent Ram from over extending.
- Ram Lock nut for additional safety.
- All the jacks are tested for load carrying above rated capacity*
- Ideal for use on heavy duty trucks and other automotive applications.
- Double lift (telescoping Ram) available for multiple vehicle applications (ie for Cars and SUVs)
- Metallic multicoat painting: high durability and improved cosmetics.

Available in 100 T, 75T, 60T, 50T, 35T, 22T,15T, 10T, 8T,5T,3T and 2T capacities.

*Safety warning: For safety, always use the Jacks to lift below the rated capacity, Once lifted, support the load with “load support stands” before any one start working under the vehicle.

ZAAN Scissor jack 1 Ton, 2 Ton, P-Type with big handle

ZAAN Scissor Jacks are manufactured from superior grade steel as per OE and military standards and specifications. The basic design is reengineered to give additional load carrying capacity to the jacks over and above its rated capacity to accommodate the tendency to overload the vehicle under general commercial usage. All components are electroplated for preventing rust and corrosion. The case hardened lead screw and fine machining ensures smooth and light handling of the jack.

- All ZAAN jacks are tested for lifting capacity over and above rated capacity.
- Heavy duty pneumatic riveting and profiling ensures highly robust and stable load bearing capability..
- Limited tolerance Linear Swivel movement of base plate to adjust the minor level variations in case of an even floor surfaces.
- Compact design and light weight for easy storage and handling.

*Suitable for cars, SUVs, APE, ACE, Geo 3&4w, Micro CVs
